

I Need You, Joie – © 1984 Vince Vance

It's three A.M. on a lonely, foggy night
I'm out drivin', watchin' the lights
Asphalt's shiny from the silver rain
Thinkin' 'bout Joie again

Well, you're the only girl that understands me
Even you have problems seein' like I see
If we're together I know I can go straight
Get off the streets before it's too late

I need you, Joie, when this city gets too big for me to fight
I need you, Joie, sittin' close to me when it's dark at night

We're gonna make it 'cause we got plans
I'm be somebody; you know I can
But without you none of my dreams can come true

That's why I'm singin' now
Do-wop do-wah, oh, my Joie Joie
Do-wop do-wah, Oh, Joie Joie
Do-wop do-wah, oh, my Joie Joie Darlin'

A lot of people will take you through the night
But when you wake up and see them in the light
You know right away by the words that they don't say
When you can't look in their eyes and you hafta run away

I need you, Joie, when this city gets too big for me to fight
I need you, Joie, sittin' close to me when it's dark at night

We're gonna make it 'cause we got plans
I'm be somebody; you know I can
But without you none of my dreams can come true

That's why I'm singin' now
Do-wop do-wah, oh, my Joie Joie
Do-wop do-wah, Oh, Joie Joie
Do-wop do-wah, oh, my Joie Joie Darlin'

Do-wop do-wah, oh, my Joie Joie
Do-wop do-wah, Oh, Joie Joie
Do-wop do-wah, oh, my Joie Joie Darlin'
